Koblenz, DE | P: +49 17635446197 | mungathjayadev@gmail.com | [linkedin.com/in/jayadevmungath](https://www.linkedin.com/in/jayadevmungath)

Results-driven Junior Data Analyst with a strong foundation in data analysis, inventory management, and logistics operations. Proficient in Python, SQL, Excel, and Power BI, with proven ability to extract, clean, and interpret large datasets to support data-driven decisions. Experienced in generating performance dashboards, optimising warehouse workflows, and monitoring key metrics such as stock levels, order accuracy, and delivery times and committed to improving operational efficiency through analytical insights, reporting automation, and cross-functional collaboration.

EDUCATION

University of Koblenz

Master of Science

Major in Web and Data Science

Koblenz, DE

Expected July 2026

Government Engineering College

Bachelor of Technology in Computer Science

Relevant Coursework: Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Kerala, IN

Aug 2019 - Jul 2023

WORK EXPERIENCE

CAMINO INFO TECH Pvt

Python Developer Intern

Kerala, IN

Mar 2023 – Jul 2023

- Completed internship training program on Python and machine learning.
- Analysed and gained experience in real-life implementation of machine-learning techniques.
- Gained skills in data visualisation using Python libraries and PowerBi.

UNIVERSITY PROJECTS

DEPRESSION DETECTION USING DEEP LEARNING.

May 2023

- Designed and implemented a user-friendly journal application in a 4-person team using Flutter in 3 months.
- Developed a social media blogging application to detect signs of depression in users' text-based posts using deep learning techniques.
- The project aimed to identify potential mental health concerns early by analysing online activity, helping mitigate risks of severe depression and related outcomes. Submitted as part of the Bachelor of Technology program at APJ Abdul Kalam Technological University.

ACTIVITIES - ACHIEVEMENTS

INVENTO

Head of Event

Kerala, IN

Feb 2022

- Hosted an engaging workshop on App Development for Beginners, featuring hands-on coding sessions. Participants were introduced to foundational concepts.
- 50+ aspiring students joined in the 3-day workshop during a technical fest held at the university.

POKEMON RECOGNITION

Participant

Jan 2021

- Participated in a workshop held at the National Institute of Technology, Surathkal.
- Seminar for Machine Learning and NLP concepts.

ADDITIONAL

Technical Skills: Python, Javascript, HTML/CSS, PowerBi, Node JS, MS Office Packages, MS Office 365.

Languages: Fluent in English; German (A2).

Certifications & Training: Data Science (DevTown Bootcamp), Online Course and Training on Python (Internshala).
